# → OUR DEMANDS:

We are an alliance of youth associations of political parties, trade unions and other initiatives. We are in solidarity with the people at the external borders of the EU, in refugee camps, in deportation prisons and on the run.

The situation at the external borders is awful – thousands of people on the run are forced to live overcrowded camps in inhuman conditions with no prospect of continuing their journey.

Protection against infection is not possible in the camps. The EU stands by idly as people are forced to hold out in undignified conditions and puts their lives in danger. Promises made to take in refugees have so far been fulfilled only to a tiny fraction, if at all.

**We demand: #leavenoonebehind!**

Human dignity must not end at the external borders of Europe!  
The protection of life and health must not be a question of nationality!

## → We call upon the Brandenburg State Government to take immediate action:

- Launch and implement a comprehensive, humanitarian reception programme for vulnerable people on the run!
- Solidarity with the Seebrücke – Movement and the alliance of „safe harbours“!
- Abolish all mass accommodations! – Decentralised accommodation for all refugees!
- Prime Minister Woidke must use the presidency of the Bundesrat to launch a new initiative to change the Residence Act so that the Bundesländer can take in refugees without the consent of the Federal Interior Ministry!

## → We also call on the Federal Government itself and in cooperation with the EU to take action:

- Immediate evacuation of all refugees from the camps at the EU external borders!
- Reintroduction of state sea rescue and decriminalisation of private sea rescue!
- Abolish Frontex and demilitarise the EU external borders!
- Creation of safe escape routes and the facilitation of global freedom of movement!
- Ensure fast, fair and constitutional asylum procedures throughout the EU!
- End economic exploitation. Fight the climate crisis and other causes of flight. Acknowledge climate refugees!
